

QUALITY POLICY

Venus Wire is committed to provide products and services that meet or exceed our customers' requirements by maintaining a management system compliant with ISO 9001 & IATF 16949. We accomplish this by fostering commitment, training and excellence in our people and continual improvement in our products and processes.

By setting and reviewing measurable quality objectives and adhering to all applicable statutory and regulatory requirements. Venus Wire is dedicated to produce high quality products in safe, healthy and friendly environment for its workforce, customers, suppliers and the society in general.

On-time delivery requirements of the customers and compliance to industry standards & OEM requirements are considered in the execution of all the orders.

Company's priority objectives are customer satisfaction, on-time delivery and waste reduction. Objectives of quality management system are communicated to the entire supply chain and the effectiveness is monitored by senior management through various management reporting systems.
